

STEERING FUTURE LEADERS

Leadership Dripping Springs, sponsored by the Dripping Springs Chamber of Commerce, provides:

- **Hands-on interactive experience** where leaders have the opportunity to enhance their personal and professional skills
- **Deeper knowledge and understanding** of community challenges and opportunities
- **A network of colleagues and associates** throughout the Dripping Springs area
- **An opportunity to make an impact** with a community group project

Participants will travel to local venues, meet policy makers and change agents in our community, immersing themselves in current issues.

Participants will interact with elected officials, city executives, business leaders, non-profit organization leaders and others who make our community work.

Sessions are designed to provide a mix of meeting key influencers, leadership development based on Harvard research, and working on engaging community projects.

The intent is for graduates to use the insights and contacts developed through this program to enhance performance in their current jobs and to enrich the community, while building strong class camaraderie and pride in our hometown.

TOPICS

- Orientation/kick-off
- Non-Profit
- Education
- Health & Social Services
- Government
- Infrastructure
- Economic Development & Tourism
- Graduation & Celebration

Day long sessions, from 8am-5pm, will take place in local venues with an opportunity to visit key sites.

Program meets for a 2-day kick-off in January 2018 and then meets monthly on each 2nd Tuesday of the month (3rd Tuesday in March due to Spring Break and no meeting in July).

Breakfast and lunch will be provided. Time for networking and socializing is also included.
